

# Indoor infection control equals greater peace of mind.

## Meet Novel Infection Control.™

To serve the needs of our world as it is, Homesweet Home Advisor home inspection has expanded to include state-of-the-art disinfection services for both residential and commercial spaces.

We take safety very seriously, especially when it comes to keeping your family, customer, patients, students and employees well.

## Is it as clean as it could be?

We've learned that COVID-19 can live on surfaces for 6 days.

Other Coronaviruses—which include the common cold, pneumonia, COVID-19, SARS, MERS, H1N1, MERSA, GRSA, HIV-1, Hepatitis A, B & C, H5N1, and Herpes—can also live on surfaces for days.

## State-of-the-art disinfection.

NOVEL™ uses powerful disinfectants, delivered electrostatically, which are approved to kill coronaviruses, quickly, including COVID-19.

Residential • Office • Retail • Industrial • Hotels • Schools

## The benefits of our system:

- One minute kill claim for coronaviruses with a 99.999% effectiveness.
- Dries quickly with no residue.
- Electrostatic - 360 degree coverage cleans around curved and hard to reach surfaces.
- Magnetically drawn to any surface within 6 feet.

### Ideal for commercial spaces, including:

Office, retail, industrial, multifamily, hotel, mixed-use, special purposes (schools and school buses).

### And for residential spaces, including:

Single family housing, condos, and town houses.

Services do not include mopping or microfiber cloth cleaning.

Call or text us today for a free quote.
